With a series of signature events throughout December, the **32<sup>nd</sup> annual Festival of Trees** will bring the 2017 holiday season to life in Greenville. Spectacularly decorated trees line the entranceway of four hotels in downtown Greenville, giving visitors and community members the chance to experience the magic of the holidays. The **Martinis & Mistletoe** cocktail party is a don't-miss way to kick off the season and the **Teddy Bear Luncheon** is a childhood favorite that offers a morning with Santa for the whole family.

Bon Secours St. Francis is known for providing **award-winning, comprehensive cardiac care**. With a stellar record as one of the nation's leading cardiac care hospitals, it is important for our patients to know that when they are experiencing the first signs of a heart attack to call EMS and ask to be transported to the **Bon Secours St. Francis Emergency Department** where we have staff who are trained experts in coronary artery disease, available 24 hours a day. A **Chest Pain Center** will be located adjacent to the Emergency department where patients will be monitored and tested quickly. This center will not only allow St. Francis to reduce more heart attack deaths because of the rapid treatment, but it will also reduce patient hospitalization length of stay and unnecessary treatment and procedures.

### ***Bon Secours St. Francis Heart Stats***

- Treats heart attacks 3x faster than the national average
- 1<sup>st</sup> cath lab in the United States to receive Accreditation for Cardiovascular Excellence (ACE)
- Truven Top 100 Hospital
- 2017, 2016, 2015 America's 100 Best Hospitals for Cardiac Care Award (Health Grades)
- 5 star rating for heart attack and heart failure care (Health grades)

The St. Francis Festival of Trees has been a highlight of the holiday season since 1986 and we invite you to celebrate with us as we bring together businesses and community members to support the St. Francis Chest Pain Center.
